Roulette Basics

Roulette is an intriguing game that is played throughout the world. The

large payoffs that are possible for small wagers stimulate the inte

rest of the expert

as well as the novice player, playing Roulette in Vegas.

The rules of Roulette

different players use different colored chips so the bets are not conf

used. The value

of your chips is determined by the price you pay for them. When you

re done playing

make certain to redeem your chips at the same table you were playin

g at. Once you leave

that table no one will know the value of your chips.

Each spin of the wheel provides a

multitude of options for the player. A player may bet on single number

s, rows of

numbers, or on adjacent numbers. A player also may play colors, odd

or even numbers,

among others. A bet on a single number pays 35 to 1, including the

0 and 00. Bets on

red or black, odd or even pay 1 for 1, or even money.

We re proud to offer Roulette in

three variations. In addition to our popular American-style Roulett

e game with 36

numbered slots, a 0 and a 00, we also offer our European Roulette, whi

ch has a single 0

along with the standard 36 numbers, and is a favorite among our intern

ational

customers. We also offer an exciting new version, where an addition

al betting option is

added.

The diagram indicates the Roulette rules payout for single chip bets

and the

many combinations available to you. The dealer will be happy to explai

n any of them.

The exact placement of the chips determine the bet being made. Each

player is

responsible for the correct positioning of their wager on the layout

t regardless of

whether the bet is placed by the dealer.
